## Container Repair Specialist

Fifteen years experience in automotive shipping container repair

### Pressure Washing

All containers are cleaned thoroughly to ensure best possible paint adhesion.

### Parts Manufacturing

Required repair parts are manufactured by QFI personnel.

### Weld/Repair

Containers are squared and welded to their original structural integrity.

### Paint

All repaired containers are painted using the highest quality water based (rust prohibitive) paint

### Warehousing

Spacious warehouse storage to accommodate a wide variety of customer requirements.

### Freight

QFI trucks expand the companies capabilities to better meet the customers needs.
